Is this a "Fast & Focused" Search Request? (Circle One) YES NO

A "Fast & Focused" Search is completed in 2-3 hours (maximum). The search must be on a very specific topic and meet certain criteria. The criteria are posted in EIC3600 and on the EIC3600 NPL Web Page at <http://ptoweb/patents/stic/stic-tc3600.htm>.

What is the topic, novelty, motivation, utility, or other specific details defining the desired focus of this search? Please include the concepts, synonyms, keywords, acronyms, definitions, strategies, and anything else that helps to describe the topic. Please attach a copy of the abstract, background, brief summary, pertinent claims and any citations of relevant art you have found.

### Abstract (Document Summary)

SAN FRANCISCO, Feb. 9 /PRNewswire/ -- If much of the Internet is, in fact, destined to become much like commercial television, then craigslist will hopefully be its PBS.

Well, if that's true, then the turnout and the energy level at the 5th Annual Craigslist Party, held recently at San Francisco's International Center, proves that old age, on the Internet at least, is something we all should look forward to.

Started by Craig Newmark in 1995 as a free local bulletin board, posting service and all-around community builder, craigslist has become a hot buzz in the greater San Francisco Bay Area and nearby Silicon Valley.

### Full Text (552 words)

*Copyright PR Newswire - NY Feb 9, 2000*

SAN FRANCISCO, Feb. 9 /PRNewswire/ -- If much of the Internet is, in fact, destined to become much like commercial television, then craigslist will hopefully be its PBS.

But unlike public TV, craigslist will throw much more interesting parties, give money rather than ask for it, and best of all -- everyone is invited.

It might make a good New Yorker cartoon: someone staring at an elaborate website on their computer screen that proudly displays the banner: "Celebration Party We've been In Business Since 1999"

But maybe it's too close to the truth to be funny. In the realm of SIT (Standard Internet Time), a one year old is a mature adult, and any enterprise that's had its fifth birthday is a virtual Methuselah.

Well, if that's true, then the turnout and the energy level at the 5th Annual Craigslist Party, held recently at San Francisco's International Center, proves that old age, on the Internet at least, is something we all should look forward to.

Started by Craig Newmark in 1995 as a free local bulletin board, posting service and all-around community builder, craigslist has become a hot buzz in the greater San Francisco Bay Area and nearby Silicon Valley.

Part of craigslist's popularity is simply because it's so useful to everyone, but undoubtedly it is just as well-known for its refreshing lack of banner ads, pop-ups, give-aways, stock quotes, sports scores, and hot links to very expensive German luxury cars. A touch of eccentricity hasn't hurt either, and then there are all those juicy high-tech job postings.

The 5th Annual Craigslist party was a lot like craigslist itself, a website come to life, if you will, with the visitors more or less creating the show.

Many local non-profit groups were there, invited to introduce themselves to the general Bay Area community as well as have a

look at what types of free technology might serve their individual agendas. Hundreds of guests dropped in for a browse, paying a nominal \$10 for excellent food and drink, software displays projected on the walls of the various rooms, a chance to meet Craig in person, and by climbing one flight of stairs, for a massage courtesy of another nonprofit organization, the Community Acupuncture Clinic.

Craigslist will be teaming up with dedicated Bay Area non-profits that bring technology down to the grassroots level, like Nipun Mehta's CharityFocus.org out of Santa Clara and Magda Escobar's East Palo Alto group, Pluggedin.org.

And soon to appear online at craigslist will be new software debuted at the party. PageWeasel, a web page builder for non-techies written by a friend of Craig's, Paul Ewing, and HyperMatch, designed by Rob Brown, match affinities among singles, special interest groups and roommates.

Coupled with craigslist's active distribution of cash grants to community groups, these alliances only reaffirm the original vision of craigslist, that the Internet can be democratic, accessible to all, non-commercial, and most of all, a powerful tool to build a community where people help people.

craigslist

Craigslist ([www.craigslist.org](http://www.craigslist.org)) is a Bay Area website that strives to unite the community. The free posting service it provides helps users find anything from household items and apartments to jobs. Additionally, craigslist is an organization that helps nonprofits by connecting these organizations to the community. SOURCE craigslist

French Abstract

L'invention concerne un systeme de selection et de livraison de livre acceptant l'inclusion de publicites ciblees basees sur les gouts litteraires d'un abonne. Le systeme comprend un dispositif de gestion de publicite ciblee qui rassemble les informations concernant les abonnees au livre electronique, les livres electroniques et les publicites et qui selectionne de maniere optimale les publicites devant etre placees dans les livres electroniques personnalises a l'intention d'un abonne unique. Le systeme comprend un centre des operations, un systeme de distribution, un systeme domotique et un systeme de facturation et de collecte. Le centre des operations, en collaboration avec le dispositif de gestion de publicite ciblee, execute les fonctions de manipulation de donnees texte, les fonctions de securite et de codage du texte, le catalogage des livres electroniques, les fonctions de centre des messages, les fonctions de selection, d'inclusion et de livraison de la publicite. Le systeme domotique est relie a un systeme de distribution, il produit des menus et stocke du texte et il effectue les transactions par l'intermediaire de moyens de communication. On utilise un appareil de visualisation portable et electronique se presentant sous la forme d'un livre afin de visualiser le texte et les publicites. Les publicites peuvent viser des systemes domotiques individuels en fonction de caracteristiques communes d'abonnees, y compris le champ d'influence dominante, l'age, les habitudes de lecture et les revenus.

## English Abstract

Apparatus and methods for providing an Internet site serving as a secure, electronic vault, repository or file cabinet for consumer's transaction records, legal documents, insurance policies and other secure information that consumers may wish to store on a website. This storage, provides commerce services that save the consumer time. In various embodiments, the invention is as follows: participating merchants send transactions records to the Internet site for viewing from the consumer website. To view the electronic record, the consumer visits the site, identifies himself and selects the record they wish to view. The consumer may search for a particular record using multiple criteria and view an image of the record. Once the record is selected, the consumer may download data related to the record personal-finance programs. This saves time for consumers tracking personal spending or creating expense reports. As transactions are identified and viewed, the website displays advertisements to the consumer, targeted, based upon consumer demographics, stated preferences, purchasing history or other methods.

## French Abstract

L'invention concerne un appareil et des procedes destines a la creation d'un site internet servant de chambre forte electronique protegee, de referentiel ou de classeur pour les enregistrements de transactions, documents juridiques, polices d'assurance et autres informations protegees que les consommateurs souhaitent stocker sur un site web. Ce systeme de stockage fournit des services commerciaux, faisant ainsi gagner du temps au consommateur. Dans divers modes de realisation, l'invention comprend les etapes mentionnees ci-apres. Des commerçants participants envoient des enregistrements de transactions au site internet afin que le consommateur puisse les visualiser depuis son site web. Pour visualiser l'enregistrement electronique, le consommateur visite le site, s'identifie et selectionne l'enregistrement qu'il souhaite visualiser. Le consommateur peut chercher un enregistrement en

particulier, en utilisant de multiples criteres, et visualiser une image de l'enregistrement. Lorsque l'enregistrement est selectionne, le consommateur peut telecharger des donnees liees aux programmes de credit mobilier de l'enregistrement. Ceci permet de gagner du temps aux consommateurs voulant verifier leurs depenses personnelles ou generer des rapports sur l'etat de leurs depenses. Lorsque les transactions sont identifiees et visualisees, le site web presente des publicites au consommateur. Ces annonces peuvent etre cibles a partir de donnees demographiques concernant les consommateurs, leurs preferences, l'historique de leurs achats ou d'autres procedes, afin de susciter un plus grand interet chez le consommateur. Le consommateur peut s'inscrire pour etre informe a l'avance concernant des evenements speciaux ou des services aide-memoire, lors d'occasions speciales d'achat (anniversaires de mariage, anniversaires, etc.), avec des recommandations specifiques sur les marchandises. Les consommateurs peuvent commander a nouveau des produits ou etre achemines sur le site web d'achat d'un commerçant pour acheter des pieces detachees ou des accessoires, en selectionnant ("cliquer sur", par exemple) l'article choisi dans un enregistrement.

#### English Abstract

Apparatus and methods for a web-based transaction data storage and retrieval offering for merchants and customers, providing; retailers the operational cost savings of electronic signature capture with minimal integration of such signatures into their legacy systems. Transaction data including signatures are securely transmitted from the merchant to the remote, transaction-record repository. An internet browser then accesses an electronic-records-service web-site that provides a straightforward, user-friendly interface (for searching transaction-record data) for recreating receipts as proof of a transaction. When a transaction record (a receipt, for example) is required, the customer, the merchant's employees or designated financial agents of the customer or the merchant (banks or payment processors, for example) can access the electronics-records service through an internet using a web browser. These records can be viewed, downloaded or printed; or faxed or e-mailed to the desired recipient.

#### French Abstract

Cette invention concerne un dispositif et des procedes portant sur un systeme Web de stockage et de recuperation de donnees de transaction a l'intention de vendeurs et de clients. Grace a ce systeme, les detaillants peuvent reduire les couts operationnels en rapport avec la capture de la signature electronique, pour une integration minimale desdites signatures dans leurs systemes existants. Des donnees de transaction avec signatures sont transmises en toute securite du marchand a une logitheque a distance d'enregistrement des transactions. Un navigateur Internet permet ensuite d'accéder a un site web avec service d'enregistrement electronique qui assure une interface directe et conviviale (pour la recherche de donnees de transaction) en vue de la re-creation de recus comme preuve de la transaction. Lorsqu'une piece relative a une transaction (un reçu par exemple) doit être fournie, le client, le personnel du vendeur ou des agents financiers dument designes du client ou de vendeurs (tels que banques ou organismes charges du traitement des paiements) peuvent accéder aux dossiers electronique via Internet au moyen d'un navigateur. Ces dossiers peuvent être etudies, transférés ou imprimés, ou bien être expédiés par telecopie ou courrier électronique au destinataire voulu. Pour accéder a un dossier electronique, l'utilisateur se rend sur le site Internet correspondant, s'enregistre et choisit la transaction pour laquelle il souhaite voir le reçu. Pour cette recherche, il peut utiliser divers moyens (tels que date, emplacement d'enregistrement, montant total de la transaction) et observer visuellement le reçu. L'utilisateur peut utiliser le dossier ainsi recupere de la transaction pour contester une facturation ou bien retourner un echanger un bien. Ce service d'enregistrement de dossiers constitue ainsi un moyen rapide et economique au service du client tout en ameliorant la qualite du service a la clientele.

## French Abstract

L'invention concerne un systeme auxiliaire permettant la commande  
transparente de transactions de commerce electronique, a travers lequel  
un individu sans carte de credit peut effectuer des achats sur des sites

de vente en ligne. Lors de l'ouverture d'un compte dans le systeme auxiliaire, ce compte peut etre credite au moyen de diverses sources de financement, p. ex. des cartes de credit, des comptes cheques, des mandats, des cheques cadeau, des codes d'interressement, de la monnaie en ligne, des coupons et des cartes a valeur stockee. Un utilisateur possedant un compte credite peut effectuer des achats sur de nombreux sites Web de vente, par l'intermediaire du systeme auxiliaire. Lorsqu'une marchandise est selectionnee, une transaction d'achat est effectuee au cours de laquelle une carte de credit appartenant au systeme auxiliaire est temporairement ou definitivement attribuee a l'utilisateur. La carte de credit, une fois creditee par le compte credite correspondant de l'utilisateur, s'utilise pour conclure la transaction d'achat. Le systeme auxiliaire fournit des commandes comprenant la surveillance des trains de donnees et, par consequent, la commande du flux d'informations entre l'utilisateur et les sites de vente.

## English Abstract

The present invention relates to the combination of a marketing business with a membership buying opportunity. The present invention is also directed to a system and method for combining a marketing business with a membership buying opportunity, so that Independent Business Owners (10) participating in the marketing plan can introduce customers to a membership buying opportunity and earn bonuses or commissions based on the purchases by those members, while Members (30) in the buying opportunity can consume products or, at their option, qualify to become Independent Business Owners (10).

## French Abstract

La presente invention associe les caracteristiques d'une societe de commercialisation a celles d'un groupement d'achats en commun. La presente invention concerne egalement un systeme et un procede permettant d'associer les caracteristiques d'une societe de commercialisation a celles d'un groupement d'achats en commun, de sorte que des chefs d'entreprise independants (10) participant a cette strategie de commercialisation peuvent faire adherer de nouveaux clients a leur groupement d'achats en commun et donc se voir gratifier d'un bonus ou d'une commission en fonction des achats effectues par ces nouveaux membres, les autres membres (30) dudit groupement d'achats en commun

pouvant consommer les produits ou, le cas echeant, remplir les conditions pour devenir chefs d'entreprise independants (10).

## English Abstract

The present invention is directed to a system and method for providing electronic commerce transactions via a Web site (102) and a marketing company (100), including facilities for signing up new customers and recruiting, training, and supporting new Independent Business Owners through an interactive online process. In another aspect, the present invention relates to the combination of a marketing business with a membership buying opportunity using both electronic commerce and face-to-face transactions, so that Independent Business Owners participating in the marketing plan can introduce customers to a membership buying opportunity and earn bonuses or commissions based on the purchases by those members, while Members in the buying opportunity can consume their products or, at their option, qualify to become Independent Business Owners.

## French Abstract

La presente invention concerne un systeme et un procede permettant de mener a bien des transactions de commerce electronique (ou <=E-commerce>=), ainsi que des solutions offertes, par l'intermediaire du

Web, a une societe de commercialisation pour ses produits, notamment des fonctions permettant l'adhesion de nouveaux clients et le recrutement, la formation, et la gratification de nouveaux chefs d'entreprise independants, et ce par un processus interactif en ligne. Dans un autre aspect, la presente invention associe les caracteristiques d'une societe de commercialisation a celle de groupements d'achats en commun, et ce grace au commerce electronique et aux transactions face-a-face. La presente invention concerne egalement un systeme et un procede permettant d'associer les caracteristiques d'une societe de commercialisation a celle d'un groupement d'achats en commun, de sorte que les chefs d'entreprise independants participant a cette strategie de commercialisation peuvent faire adherer de nouveaux clients a leur groupement d'achats en commun et donc se voir gratifier d'un bonus ou d'une commission en fonction des achats effectues par ces nouveaux membres, les autres membres dudit groupement d'achats en commun pouvant consommer les produits ou, le cas echeant, remplir les conditions pour devenir chefs d'entreprise independants.

## English Abstract

An Internet (or World-Wide-Web) or other such public or private network) based business card and contact management system capable of conveying and managing advertising as well as traditional and other non-traditional business contact information. The invention is a system that: (1) accepts a Universal Contact Locator (UCL) as encoded on a business card in man and/or machine readable format and, when the Universal Contact Locator (ULC) is entered into a client program running on a client computer, (2) causes a web browser (or like program) and associated communications software to establish a communications session with a remote server computer which (3) accesses the stored contact and advertisement and news information of the card issuer associated with the Universal Contact Locator and (4) downloads the business contact and/or personal contact information and targeted advertisements and news items associated with the Universal Contact Locator to a client program running on a client computer which (5) loads the contact data into the Contact Management or Personal Information Management (PIM) system of the users choosing running on the users client computer and (6) stores the advertisements and news items downloaded from the server computer on the client computer's secondary storage device (i.e. hard disk) and (7) causes the advertisements and news items stored on the client computer's secondary storage device to be displayed to the user on a predetermined schedule in a portion of the client computer's output device (i.e. CRT or LCD panel).

## French Abstract

L'invention concerne un systeme de gestion de cartes de visite et de contacts base sur l'Internet (ou le World Wide Web ou tout autre reseau public ou prive), qui est capable de vehiculer et de gerer des messages publicitaires ainsi que d'autres informations de type contacts commerciaux non traditionnels. L'invention concerne donc un systeme qui : (1) accepte un Localisateur de Contact Universel (UCL) code sur une carte de visite dans un format lisible par l'homme et/ou la machine, et qui, lorsque le Localisateur de Contact Universel (UCL) est introduit dans un programme client s'executant sur un ordinateur client, (2) entraine l'etablissement, par un navigateur Web (ou autre programme analogue) et son logiciel de communication associe, d'une session de communication avec un ordinateur serveur hors site, qui (3) accede aux informations enregistrees de type contacts, messages publicitaires et elements d'informations relatives a l'emetteur de la carte associees au Localisateur de Contact Universel et (4) transmet ces informations de type contacts commerciaux et/ou contacts personnels, ainsi que des messages publicitaires et des elements d'information cible associes au Localisateur de Contact Universel a un programme client s'executant sur un ordinateur client, qui (5) charge les donnees de contact au niveau du systeme de gestion des contacts ou des informations personnelles des utilisateurs choisissant l'execution sur l'ordinateur client-utilisateurs et (6) enregistre les messages publicitaires et les elements d'informations telecharges a partir de l'ordinateur serveur sur le dispositif de stockage secondaire (disque dur) de l'ordinateur client, et (7) permet d'afficher a l'intention de l'utilisateur les messages publicitaires et les elements d'information enregistres sur le dispositif de stockage secondaire de l'ordinateur client, selon un calendrier preetabli, sur une partie du dispositif de sortie (afficheur cathodique ou a cristaux liquides) de l'ordinateur client.

English Abstract

A method, system, and computer program product for delivering a targeted advertisement. A first identifier, such as a cookie, corresponding to the first computer is received from the first computer. A targeted advertisement is delivered to the first computer in response to receiving the first identifier from the first computer. The targeted advertisement is based on the observed offline purchase history of a consumer associated with the first identifier. The invention includes the delivery of a promotional incentive for a consumer to comply with a particular behavioral pattern. The behavioral pattern may be a predefined change in purchase behavior or continuance of an established purchase behavior. The targeted advertisements sent to consumers may be changed and/or refined based on changes in consumers' purchase history behaviors.

French Abstract

L'invention concerne un procede, un systeme et un programme informatique permettant d'envoyer une publicite ciblee. Un premier identificateur, tel

qu'un cookie, correspondant au premier ordinateur, est transmis par le premier ordinateur. Des reception du premier identificateur transmis par le premier ordinateur, une publicite ciblee est envoyee au premier ordinateur. Cette publicite ciblee se fonde sur l'historique d'achat hors ligne d'un consommateur associe au premier identificateur. L'invention consiste a envoyer une promotion destinee a un consommateur et adaptee a un type de comportement particulier. Ce type de comportement peut consister en un changement predefini d'un comportement d'achat ou en une continuation d'un comportement d'achat etabli. Les publicites ciblees envoyees aux consommateurs peuvent etre modifiees et/ou ameliorees en fonction de changements intervenus dans l'historique des comportements d'achat du consommateur.

**English Abstract**

There is disclosed a process for facilitating consumer and professional interaction and communication [2250, 2350, 2750, 2850] about products and services that require a professional decision and prescription or authorization before a consumer can purchase or use a particular product or service by a professional, or facilitating the marketing of regulated products by manufacturers to professionals, consumers and health care systems, or providing consumers with a means for influencing decisions of professions and health care systems with respect to providing a product or service and having the product or service available with a particular health care system program.

**French Abstract**

L'invention porte sur un procede visant a faciliter l'interaction et la communication [2250, 2350, 2750, 2850] entre des professionnels et des

consommateurs concernant des produits et des services qui necessitent une decision et une ordonnance ou une autorisation d'un professionnel avant que le client n'achete ou n'utilise un produit ou service particulier, ou faciliter aux fabricants la commercialisation de produits reglementes a des professionnels, des consommateurs et des systemes de soins de sante, ou fournir a des consommateurs un moyen d'influencer des decisions de professionnels et de systemes de soins de sante par rapport a la fourniture d'un produit ou service ou un moyen d'obtenir le produit ou service disponible avec un programme specifique d'un systeme de soins de sante.

## English Abstract

In accordance with the present invention, a controller receives information relating to customer activity with a first vendor, typically via a **Web page** that a customer accesses. The controller further receives an indication of items the customer desires to purchase, the items having an associated total price. The controller determines, based on any of various criteria, whether to provide an offer for a subsidy based on the information relating to customer activity. For example, a customer that places certain items in his virtual shopping cart may receive such an offer. The offer for a subsidy is from a second vendor (a subsidizing vendor), and may define, for example, a reduction in the price charged for the item and an obligation for the customer to fulfill in exchange for the subsidy. For example, the customer may be obliged to sign up for a credit card or telephone service provided by the subsidizing vendor. An indication of the offer for the subsidy is provided to the customer, e.g., via a text or graphical display on the **Web page**. The customer responds via known user interface techniques and, if he accepts the offer, he is charged a second price for the items. The second price is less than the total price, and may even be zero. Thus the customer may get his desired **items** for **free** in exchange for fulfilling the obligation with the subsidizing vendor.

## French Abstract

Selon l'invention, un controleur recoit des informations concernant l'activite d'un client avec un premier vendeur, generalement par le biais d'une page Web, a laquelle a accede un client. Ledit controleur recoit ensuite une information portant sur les articles que le client souhaite acheter, lesdits articles ayant un prix total associe. Le controleur determine, en fonction de plusieurs criteres, s'il faut offrir une prime suivant l'information recueillie sur l'activite du client. Par exemple, un client qui met certains articles dans son chariot de courses virtuel peut recevoir une telle offre. Cette offre d'une prime vient d'un second vendeur (un vendeur offrant des primes), et peut presenter, par exemple, une baisse du prix de l'article et une obligation que doit contracter le client en echange de la prime. Par exemple, le client peut etre oblige de souscrire a un credit ou a un service telephonique fourni par le vendeur offrant des primes. Une indication de l'offre de la prime est fournie au client, par ex., par une texte ou un affichage graphique sur une page Web. Le client repond en utilisant une interface d'utilisateur connue et, s'il accepte l'offre, il paye un second prix pour les articles. Ce second prix est inferieur au prix total, et peut meme etre nul. Le client peut ainsi recevoir les articles souhaitees en echange de son obligation contractuelle convenue avec le vendeur offrant des primes.

## English Abstract

A method for targeted advertising is described, suitable for use with networked devices with a visual display. Advertisements are selected to be presented to a user based on a demographic and psychographic profile of the user, as well as response to previous advertisements by the user. In this way, targeted advertisements can be presented to the user on the visual display. In addition, various input devices are presented to allow the user to perform a transaction associated with the advertisement. Some of these transactions include calling the advertiser, placing an order for the advertised product or service, and requesting more information about the advertised product or service from the advertiser.

## French Abstract

Procede pour publicite ciblee, destine a etre utilise avec des dispositifs en reseau dotes d'un ecran d'affichage. Des publicites sont choisies pour etre presentees a un utilisateur sur la base du profil demographique et psychographique de l'utilisateur, ainsi que de la reponse de l'utilisateur a des publicites precedentes. De cette maniere, des publicites ciblees peuvent etre presentees a l'utilisateur sur son ecran d'affichage. De plus, divers dispositifs d'entree sont presentes, qui permettent a l'utilisateur d'effectuer une transaction associee a la publicite, dont l'appel de l'annonceur, l'etablissement d'une commande pour le produit ou service vante et la demande a l'annonceur d'informations supplementaires sur le produit ou service vante.

## English Abstract

This invention relates to a system and method for defining, electronically distributing, dynamically displaying to a consumer, redeeming and clearing promotional incentives over a network. One or more parameters of the incentives may be dynamically determined by being dependent on one or more characteristics of the consumer including the location on the network where the incentive is being viewed.

## French Abstract

L'invention concerne un systeme et un procede permettant de definir, de distribuer electroniquement, d'afficher dynamiquement a l'attention d'un consommateur, d'echanger et de compenser des incitations promotionnelles sur un reseau. Un ou plusieurs parametres associes a des promotions peuvent etre determines dynamiquement en fonction d'une ou plusieurs caracteristiques du consommateur, notamment sa localisation sur le reseau ou la promotion est visualisee.

Treatment: General, Review (G)

Abstract: Hyperlinks represent the essence of Web-based activity. While most sites welcome and support incoming links, others block them. Deep links bypass the home page. I explore the issue of deep linking from a moral vantage point. Deep linking raises a plethora of complex property issues with subtle moral implications. The most fundamental question concerns the appropriate scope of property rights for a Web site and how those rights can be properly balanced against the common good of free and open communications on the Web. There is no presumptive claim to the liberty of deep linking at will. I make the case that a Web site is a form of intellectual property, drawing support from the major theories that justify property ownership. Then I consider the specific rights implied by such ownership. On the basis of those rights, a prima facie case can be made that, because of the potential for negative effects, users should not presume that deep linking is acceptable unless they first seek out the permission of the target Web site. I also fully appreciate the dangers inherent in proprietizing the Web and the need to encourage the most flexible forms of linking. Therefore, I argue that any arbitrary or unnecessary restrictions against deep linking should be eschewed for the sake of the common good of open communications, flexibility and maximum porosity in the Internet environment. While Web - site authors may indeed have a property right in their creative work, they have a correlative obligation to promote the sharing and free flow of information when their specific ownership rights are not put in jeopardy by deep linking. (11 Refs)

Securicor offers shield to internet shoppers  
UK: SECURICOR OFFERS INTERNET SHOPPING SERVICE  
Financial Times (FT) 28 Nov 2000 p.4  
Language: ENGLISH

The UK security company, Securicor, plans to provide a **free** service to people buying **goods** via the Internet that does not require consumers to give details of credit card numbers, e-mail or home addresses. Securicor will provide anonymous surfing and delivery of goods through its Securicor Omega Express service. Consumers will be able to register their details on the Securicor **website** from spring 2001, transferring the risk of online fraud to Securicor as it processes any transactions. Securicor has already signed agreements with a number of retailers, who will pay a commission to Securicor based on the value of goods purchased.

New dotcom to boost Internet cafe business in the metropolis

PHILIPPINES: CONTESTONLY.COM BARES PLANS  
Manila Bulletin (XAZ) 04 Aug 2000 Online  
Language: ENGLISH

In the coming one to two months <by September 2000>, <Singapore-based> consumer contest Web portal conetstOnly.com Pte Ltd will be rolling out its affiliate program in the Philippines. Under the programme, the portal will work with Philippine Internet cafe operators to encourage more visitations at the portal. For the said purpose, contestOnly.com will give away free items such as pencils and notebooks to its portal's visitors through the registered Internet cafes. Within 2000, contestOnly.com targets to expand to China, Taiwan, Korea and Hong Kong. Meanwhile, conetstOnly.com intends to partner with Philippine telecommunications and technology firms.

The Trouble With Web Advertising

US: COMPETITION FOR INTERNET ADVERTISING  
Fortune International (FI) 12 Apr 1999 p.65-66  
Language: ENGLISH

Between 1997 and 1998 US spending on Internet advertising is believed to have jumped by 100% to US\$ 2bn, however, the average cost of each advertisement on a **web page** is falling due to increased competition and the fall is expected to continue. This is because it is easy for new web publishers to set up and so create extra web advertising space, creating a situation of over supply. The company with the highest internet advertising revenues is Yahoo with US\$ 203.3mn in 1998, although they also spend US\$ 92.4mn on marketing. The next two top advertising earners are Exite, with US\$ 154.1mn, and CNET, with US\$ 49.4mn. The battle to attract Internet viewers has led some sites to offer people user points for every page that they look at. Such points are then exchangeable for **free goods**.
